

Yamaha F250 - Powerful, smooth and economical.

Technical Specifications

- V6 power with Electronic Fuel Injection (EFI)
- Digital 'drive-by-wire'
- Electronic throttle and shift
- Variable trolling RPM and engine synchronisation
- Wide Range Power Trim & Tilt for smooth control
- Yamaha's special aluminium alloy
- TCI Micro computer ignition system
- VCT – variable camshaft timing
- Blow by gas re-burning system

F250A

Specifications:

Engine Type:	4-Stroke / 60° -V6
Bore and Stroke:	94mm x 80.5mm
Displacement:	3352cm ³
Performance (mid):	183.9kW / 5500 rpm
Full throttle operating range:	5000~6000rpm
Weight (standard model):	278.0 kg
Carburation:	Electronic Fuel Injection
Fuel Tank Capacity:	Option
Oil Capacity:	5.6 litres
Lubrication System:	Wet-sump
Ignition System:	TCI/Computer
Lighting Coil / Alternator:	12V - 46A
Gear Ratio	15:30
Starter System:	Electric
Trim:	Power Trim & Tilt
