

Yamaha F350 - All the V8 power you ever dreamed of...

Technical Specifications

- V8 power with Electronic Fuel Injection (EFI)
- PrimeStart™ chokeless system for easy starting
- Variable trolling RPM and engine synchronisation
- Luxury square digital network gauges
- Ion sensor combustion to prevent knocking
- Digital 'drive-by-wire'; digital throttle & shift
- Yamaha's Ideal Anti-corrosion Protection (YDC-30)
- Wide Range Power Trim & Tilt for smooth control

F350A

Specifications:

Engine Type: 4-Stroke / 60° -V8

Bore and Stroke: 94mm x 96mm

Displacement: 5330cm³

Performance (mid): 257.4 kW / 5500rpm

Full throttle operating range: 5000~6000rpm

Weight (standard model): 365kg

Carburation: Electronic Fuel Injection

Fuel Tank Capacity: Option

Oil Capacity: 8 litres

Lubrication System: Wet-sump

Ignition System: TCI/Computer

Lighting Coil / Alternator: 12V -50A

Gear Ratio 15:26

Starter System: Electric

Steering Remote Control

Throttle and shift controls Electronic remote control

Trim: Power Trim & Tilt

- * The kW data in this catalogue is based on the ICOMIA 28 standard, measured at the prop shaft

- * Weight without propeller (kg)
